Newspaper advertising is a permanent addition to the reputation of the goods adver tised, because it is a permanent influeence always at work in their interest.

Newspaper advertising promotes trace, for

even the dullest times advertisers secure

by far the largest share of what is being

done.

Newspaper advertising is now recognized, by business men having faith in their own wares, as the most effective means for se-

enring for their goods a wide recognition

of their merits.

Newspaper advertising is the most energeti and vigilant of salesmen; addressing thou ands each day, always in the advertiser's

interest, and ceaselersly at work seeking

customers from all classes.

Newspaper advertising impels inquiry, and when the article offered is of good quality and at a fair price, the natural result is in creased sales.
